### OBJECTIVE

---

I am a React developer with a strong frontend skill set. I have successfully completed 12 personal projects, showcasing practical expertise. I am actively seeking an entry-level role or internship to contribute within a collaborative team.

### SKILLS

---

**Frontend:** HTML | CSS | JavaScript | Tailwind CSS | React.JS

**Backend:** Node.js | Express.js | MongoDB

**Tools:** Git | Firebase | VSCode | NPM | React Router

### PROJECTS

---

#### 1. Bery - Real-Estate

[Visit](#) | [Frontend Code](#) | [Backend Code](#)

Developed Bery, a cutting-edge real estate platform leveraging React.js, Node.js, Express.js, and MongoDB; implemented dedicated dashboards for admins, users, and agents, revolutionizing property transactions with seamless connections and a secure, transparent, and effortless journey.

**Key Features:**

- Developed a feature-rich admin dashboard with robust property and user management capabilities.
- Real-Time Data Fetching with Tanstack Query
- Customized cursor using react-animated-cursor

#### 2. Share Food - Food Donation

[Visit](#) | [Frontend Code](#) | [Backend Code](#)

Developed 'Share Food' a website where people can donate extra food to those who need it. It's built with React.js, MongoDB, Node.js, and Express.js for a user-friendly experience.

**Key Features:**

- Implemented environment variables to secure Firebase config keys and MongoDB credentials.
- Developed a secure login and registration system with relevant error messaging using Firebase.
- Implemented search functionality for filtering foods by name.

#### 3. eTrade - Ecommerce

[Visit](#) | [Frontend Code](#) | [Backend Code](#)

Developed 'eTrade' a dynamic and responsive MERN Stack e-commerce platform featuring products from various fashion brands.

**Key Features:**

- React state management for the shopping cart, with MongoDB storing user-specific cart data.
- Used React for UI, Node.js/Express.js for server, and MongoDB for database.
- Firebase Authentication for secure email/password logins and optional social logins.
